On page 5, line 31, after "the Figure" please insert ---1---.

In the Claims

Please amend Claims 1 and 8 as follows:

---

1. (Once Amended) A method for measuring volatile organic compounds of a material produced in a process system having emissions, said method comprising:

(a) disposing an amount of said material in an enclosed bag having a sealable opening such that there is headspace above said material in said enclosed bag;

(b) storing said enclosed bag containing said solid material at the mean exit temperature of said emissions of said system such that equilibrium between said material and said headspace is reached; and

(c) introducing samples from said headspace into a flame ionization detector which thereby measures said volatile organic compounds of said material.
